

## PRICE LIST SEED 2020/2021

Dear customer,

We are proud to present you our price list for the season 2020-2021.

You get an overview of a large number of forest seeds for both conifers and deciduous trees.

The prices are guidelines and we would be happy to make you a customized offer for larger quantities or prices for species and provenances that are not included in this price list.

Unless otherwise agreed, the seeds are delivered dry and storage-stable and cleaned to the normal standard of forest seeds. We also offer extra-cleaned (Plug Quality) or stratified seed. Please contact us for further information.

On our website ([hdseed.eu](http://hdseed.eu)) you will find, among other things, descriptions of provenances, descriptions of our plantations: C.E. Flensborg, Truust, Tophøj, Laugesen and Mourier-Petersen.

The price for seed lots with harvest year 2020 is indicative until the harvest and cleaning is completed and we have confirmed the price in writing.

We reserve the right to make printing errors.

If you have any questions, you are always welcome to contact us – please see the contact info below.

We look forward to doing business with you.

Best regards

Thomas Toftgaard

## Stratification prices

HD Seed will assist with stratification of seed, provided that the order has been received in time. In time is one year before desired delivery of hardwood seeds and six months before desired delivery of softwood seeds.

<b>INITIAL FEE: 65 EUR/LOT</b>	<b>6 EUR/KG</b> Abies sp. Fagus sp. Corylus sp.
	<b>30 EUR/KG</b> Carpinus sp. Acer sp. Crataegus sp. Prunus sp.
	<b>65 EUR/KG</b> Amelanchier sp. Aronia sp. Cornus sp. Lonicera sp. Tilia sp. Malus sp. Physocarpus sp. Rosa sp. Sambucus sp. Sorbus sp.

## Extraction and cleaning

Reprocessing, cleaning and stratification of external seed lots is carried out only by prior written agreement.

## Other terms of sale

- Minimum sale: 100 g per lot.
- The price per 1 kg is valid from ½ kg and up. For large quantities, please contact us.
